

Experimental / Amateur Built Flight Testing

Presenter led Power point presentation. This presentation acquaints the audience with Loss of Control (LOC) accident experience and makes the case that a robust flight testing program can be key to avoiding many LOC events. Suggestions for how to achieve approach flight testing in Amateur/built, experimental, and normally certificated airplanes are offered.

Directions: I-15, Winchester Road (East), Sparkman Way

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
